PROFESSIONAL SUMMARY

Third-year Artificial Intelligence student at Kafrelsheikh University with a strong interest in Machine Learning and Computer Vision. Hands-on project experience in classification, regression, artificial neural networks, and computer vision using Python and OpenCV. Familiar with supervised and unsupervised learning approaches and actively developing practical modeling and problem-solving skills. Seeking a Machine Learning or Computer Vision internship to gain industry experience and contribute to real-world AI projects.

EDUCATION

Bachelor's Degree in Artificial Intelligence — General Program
Faculty of Artificial Intelligence, Kafrelsheikh University
Expected Graduation: 2028 | Cumulative GPA: 3.27 / 4.00

TECHNICAL SKILLS

Programming: Python (Good), C++ (Intermediate)

Machine Learning: Classification, Regression, Supervised Learning, Unsupervised Learning, Artificial Neural Networks (ANN)

Computer Vision: OpenCV, Computer Vision Fundamentals

Data Processing & Visualization: NumPy, Matplotlib

Databases: SQL, MySQL

Programming Concepts: Object-Oriented Programming (OOP) — Intermediate

PROJECTS

Machine Learning — Classification & Regression
- Implemented machine learning projects involving classification and regression tasks; practiced model training and supervised learning workflows.

Supervised & Unsupervised Learning
- Practiced machine learning workflows and explored supervised and unsupervised learning methods through project work.

Computer Vision with Python and OpenCV
- Worked on computer vision projects using Python and OpenCV, applying programming and image-processing concepts.

Artificial Neural Networks (ANN)
- Applied neural network concepts through practical machine learning work.

C++ OOP Calculator — Qt
- Developed a calculator application using C++ and object-oriented programming concepts with Qt.

SQL / MySQL Database Project
- Practiced database design and SQL queries through a database project.

CERTIFICATIONS & TRAINING

NTI — Machine Learning Training | 120 hours | 26 July – 20 August 2026 | Score: 95%

Sprints × Microsoft — Summer Camp: AI and Machine Learning | Completed

CIB — Programming Internship | Completed

LinkedIn Learning — Introduction to AI | Certificate obtained
